Contracts (formerly Section 502)

Definition. A contract is an agreement between two or more parties describing terms and conditions. The term "contract" is defined in this context as various agreements related to the procurement of equipment, supplies or services. These contracts should not be confused with the construction contracts that are administered by the Unit of Contracts Management.

If the contract poses a substantial risk, the Procurement Agent may request additional review by the Office of University Counsel and/or the Department of Risk Management and Insurance. Review of documents can take anywhere from two weeks to several months depending on the complexity and the amount of negotiation required. Units are strongly encouraged to involve Procurement and Payment Services (Procurement) as early as possible, certainly in advance of submitting a final requisition with a contract.

Roles and Responsibilities for Contract Review, Approval, and Signature
