Financial Transaction SOP: Purchasing, Receiving and Purchase Order Amendment
SOP Owner: Procurement and Payment Services
Version Number, Date Revised: #4, 6/14/2021
Date Implemented:
Approval(s):

Standard Operating Procedure

1. Purpose

Receipt of Goods and Services - Cornell is not utilizing KFS Receiving.
The University Controller’s receiving policy requires confirmation of receipt for payments
greater than $5,000. The service staff member confirms receipt of goods and services by
contacting the end user via email or by ad hoc routing the e-doc for approval.
• The end user’s response is saved and attached to the e-doc (DV or PREQ).
• Alternatively, the disbursement voucher (DV) or payment request (PREQ) can be ad
  hoc routed the department/unit approver for approval.

The fiscal officer (FO) is responsible for ensuring that the amounts to be paid are correct and the
correct accounts are charged. PREQs up to and including $5,000 are eligible for auto approval of
the payment without fiscal officer approval after 10 days unless “positive pay required” is
selected on the requisition. The auto approval process for payments up to $5,000 is designed to
push payments through so that vendors are paid on time. Note: FO is permitted to approve all
payments, regardless if they are set to auto approve or not. When e-doc is auto approved, FO will
receive system-generated notice. The fiscal officer’s approval is required on PREQs greater than
$5,000 and for all orders originated in e-SHOP.

2. Scope

• Service Centers
• Fiscal Officers (FO) Note: any reference to FOs in an SOP is understood to include
  primary and secondary delegates.

Training Issue: Purchase Order Amendments (POAs) are the responsibility of the Service
Centers and are used for adding / deleting items only on quantity orders. They are not used for
changing a vendor name or changing an account. Orders that require a vendor name change
must be cancelled and reissued with the correct vendor. If accounts need to be changed, the FO
should use the PREQ. Exception: see POA Business Rules, page 12, last bullet.

3. Prerequisites (Forms / Tools)

• KFS access
• KFS “Basics” training
4. University Policy

- 3.14, Business Expenses
- 3.25, Procurement of Goods and Services (includes former policy 3.12, Procurement Card)
- 3.9, Capital Assets
- 4.2, Transaction Authority and Payment Approval
- 4.7, Retention of University Records
- 5.10, Information Security
- Supply Management Services, Buying Manual (*currently under analysis*)

5. Responsibilities

Personnel in the following roles/positions:

- Requestor (not a system role): anyone in the units who would be ordering goods and services.
- Initiator:
  - can validate that the POA is appropriate per CU business rules; and
  - has the ability to provide or request the data required to successfully fill out and submit the POA e-doc;
  - is the person who will respond to any follow-up questions; and
  - confirms that there is a valid business reason for processing the POA e-doc.
- Fiscal Officer (FO)
- C&G Processor (applies to POA)
- Commodity Reviewer (applies to POA)
- Contract Manager (applies to POA)
- Org Reviewer (applies to POA)
- Payment Authority (determined based on routing)

*Best Practice recommendation:* if additional review is deemed necessary, ad hoc route as appropriate.
**Purchase Order Amendment (POA):** when you amend a PO, the system creates a PO Amend (POA) e-doc based on the existing PO. You must enter a reason when initiating the amendment. When the amendment is submitted, it routes to the FO (for approval), which serves as notification that the order has changed.

Previous actions on the PO may limit what you are permitted to change on this e-doc; i.e., if everything has been received and paid for, you are unable to process a POA against the order.

The e-doc layout of the POA e-doc is identical to that of the original PO, with the addition of a notation in the e-doc header regarding status. A notation also displays at the top of the PO e-doc: “Warning: There is a pending action on this Purchase Order.”

When you click the amend button to initiate the e-doc, the system automatically inserts note text and the PO number in the Notes and Attachments tab of both the original PO e-doc and the POA e-doc. The same note text is placed in the original PO and the amended PO.

The View Related Documents tab allows you easy access to all documents related to the POA:

![Figure 10 – Example: View Related Documents tab, closed](image1)

![Figure 11 – Example: View Related Documents tab, open](image2)

**Best Practice recommendation:** use the correct e-doc for the task at hand. In the case of the POA e-doc, determine whether a POA is necessary or, if it would be more appropriate to submit a new PO.

If a change order is “in process,” you cannot create an additional POA or process a PREQ until it is in Final status.
POA Business Rules

- PO must be in Open status.
- Only REQS Initiator, FO, and members of Purchasing Processor role may initiate a POA.
- POAs can be internal (e.g., select “do not send to vendor” as method of transmission) or external (e.g., select “send to vendor” as method of transmission).
- If there are payment requests (PREQs) or vendor credit memos (CMs) in process, the amend button is not displayed.
- The system adds a note with: date the amendment was started, person who started the amendment, information entered on the confirm page, and previous e-doc number.
- If payment requests (PREQs) or credit memos (CMs) have been processed, the Receiving Required field cannot be changed.
- If PREQs or Credit Memos (CMs) are pending, the existing line items cannot be changed.
- Fiscal year cannot be changed.
- Contract manager cannot be changed.
- Item type cannot be changed (from QTY to NON QTY, or from NON QTY to QTY).
- Before the order has closed, new line items can be added.
- There must be at least one active line item when the submit button is selected.
- During the amend process, the original PO e-doc (i.e., before the amend button is selected) will have e-doc status of pending amendment, and the newly created e-doc will have change in process status. After the amendment has been submitted, the original e-doc status changes to retired version and the amendment’s status changes to open.
- Users are not allowed to create payment requests or credit memos against a PO that has a pending amendment.
- Do not add capital asset items on a POA; create a new purchase order for the new item.
- As indicated in the Training Issue on page 1, a POA should not be used for the sole purpose of changing an account; however, if a new line item is being entered and it is discovered that an account(s) needs to be changed, it is acceptable to change an account when adding the additional line item. Procedure: use the “remove accounts from all items” button on the Items tab (see Figure 12, below). Then, enter the correct accounts.

**Figure 12 – Items tab: remove accounts from all items button**
To cancel the entire order, REQS Initiator could utilize the “void order” button on a Purchase Order (see Figure 13, below). **Note:** after selecting “void order” button, no routing occurs. The void is not sent to the vendor. The REQS Initiator must contact the vendor directly to cancel the order. Orders that have been partially or completely filled should be closed, not voided.

On a POA, selecting the inactivate button, removes the item from the order. (See Figure 12.)

![Figure 13 – Action: void order](image)

The e-doc number (i.e., Doc Nbr) will change as related e-docs are processed, so it is a **best practice recommendation** to track by either PO # or REQS #.

**Training Issue:** the name on the PO and the name on the vendor invoice must be the same. If the names do not match (for example, if there has been a change in vendor ownership), Accounts Payable (AP) will contact the initiator, who will cancel the PO and issue a new PO to the correct vendor. (AP will also contact Procurement to update the vendor record, as needed.)

**Workflow**
- The e-doc becomes Final when the POA e-doc is submitted.
- The POA routes for FO approval.
- The POA routes to Procurement if the total order exceeds the APO limit or if it is a recurring order.
Notes:
- If Fiscal Officer creates a POA using the Amend button, they are required to add the account (and it will still route to them for approval).

POAs from unordered items will route to the FO for the account on the first line item. FO will be required to add the necessary accounting line(s) and submit (and it will still route to them for approval).

Figure 14 – POA routing and business rules
**Initiating a POA e-doc**

a. Search for the PO you want to amend from the PO search screen. Open the PO.

b. Select **Amend** to make changes to the existing PO.

c. Enter a reason explaining why you are amending this PO. (Note: POA is not used to change a vendor name or an account. See Training Issue on page 1

![Figure 15 – POA message](image)

d. Select **yes**. (Note: the reason entered will **not** be visible to the vendor.)

Screen refreshes; new e-doc number (Doc Nbr) assigned. Status is now: Pending Amendment.

![Figure 16 – PO Status: Pending Amendment](image)

e. Click the button on the Item tab and click the show button on the item you want to amend.

f. Modify the PO e-doc.

g. Select **submit**.

**Working with the POA e-doc**

You may add, change, or deactivate existing lines on the original PO after creating a POA e-doc. To add or change items or accounting lines on the PO, add or modify them as you would on the PO e-doc.

**Notes:**

- No change orders (i.e., POAs) can be done on e-SHOP orders. In order to cancel an order with an e-SHOP (B2B) vendor, contact the vendor directly. Add Notes and Attachments, if applicable.
