## POLICY STATEMENT

Cornell University requires people who use its information technology resources to do so in a responsible manner, abiding by all applicable laws, policies, and regulations.

---

## REASON FOR POLICY

The university must uphold the tenets of academic freedom, while recognizing that protecting information technology and data requires community members to act responsibly when using these resources.

---

## ENTITIES AFFECTED BY THIS POLICY

- All units of the university

---

## WHO SHOULD READ THIS POLICY

- All members of the university community

---

## WEB ADDRESS FOR THIS POLICY

## POLICY 5.1

# Responsible Use of Information Technology Resources

---

## DEFINITIONS

---

These definitions apply to terms as they are used in this policy.

<b>Denial-of-Service Attack</b>	An act initiated by a person or people using any electronic means to cause computer resources to become unavailable to its intended users for any length of time.
<b>Information Technology Resources</b>	The full set of information technology devices (personal computers, printers, servers, networking devices, etc.) involved in the processing, storage, accessing, and transmission of information.
<b>Phishing</b>	The process of attempting to acquire sensitive information such as usernames, passwords, and credit card details by masquerading as a trustworthy entity in an electronic communication.
<b>Sniffing</b>	Employing a program that monitors and analyzes network traffic, to capture data being transmitted on a network.
<b>Spamming</b>	The process of sending unauthorized bulk messages.

## POLICY 5.1

### Responsible Use of Information Technology Resources

---

## RESPONSIBILITIES, ITHACA CAMPUS UNITS

---

The following are major responsibilities each party has in connection with this policy.

<b>Director of Information Technology Policy</b>	Interpret this policy, and provide clarification and education.
<b>User</b>	Abide by all of Cornell's information technology (IT) policies, available at <a href="http://www.dfa.cornell.edu/policy-library">www.dfa.cornell.edu/policy-library</a> .

---

## RESPONSIBILITIES, WEILL CORNELL CAMPUS UNITS

---

The following are major responsibilities each party has in connection with this policy.

<b>Department</b>	Implement operational, physical, and technical controls for access, use, transmission, and disposal of Weill Cornell Medicine (WCM) data in compliance with all WCM privacy and security policies, procedures, and guidelines.
<b>User</b>	Use all WCM information technology (IT) resources and data in a manner that is legal, ethical, and consistent with the mission of education, research, and patient care. Abide by all of Cornell's applicable IT policies, available at <a href="http://www.dfa.cornell.edu/policy-library">www.dfa.cornell.edu/policy-library</a> . Abide by all WCM IT policies, available at <a href="http://its.weill.cornell.edu/policies">its.weill.cornell.edu/policies</a> .
<b>WCM Privacy Office</b>	Interpret this policy, and provide clarification and education.

## POLICY 5.1

# Responsible Use of Information Technology Resources

---

## PRINCIPLES

---

### Overview

Each member of the Cornell University community is responsible for his or her actions, including the use of information technology (IT) resources. The university's missions, law, and policy define appropriate use of IT resources, rather than whatever a user is capable of doing with these resources.

This policy applies to anyone using Cornell's networks, including faculty and staff members, students, guests, and other members of the university community.

### Special Workplace Considerations for Employees

In support of Cornell University's mission, employees are provided computing, networking, and information resources for use as business tools to support their efforts to meet their employment-related objectives. In keeping with our environment of freedom with responsibility, employees assume responsibility for their appropriate usage and are responsible for exercising good judgment regarding the reasonableness of personal use. Individuals are expected to be careful, honest, responsible, and civil in the use of computers and networks. Employees must respect the rights of others, respect the integrity of the systems and related resources, and use these resources in strict compliance with the law, university policies, and contractual obligations.

Using IT resources in the work environment in a manner that results in inappropriate conduct will be addressed as an employee performance issue, even if such conduct does not rise to the level of a university policy violation. Any use of university computers and networks by employees that is inappropriate to the workplace, or otherwise contributes to creating a harassing or uncomfortable workplace, or creates a legal risk, will subject the employee to counseling, formal disciplinary action and/or termination. Such performance concerns should be directed to the supervisor or the unit Human Resources representative.

## POLICY 5.1

### Responsible Use of Information Technology Resources

---

## PROCEDURES, ITHACA CAMPUS UNITS

---

### Introduction

This policy acts as an overarching document for all other Cornell information technology (IT) policies. These policies, along with other university policies, such as University Policy 4.6, Standards of Ethical Conduct, the Code of Academic Integrity, and the Campus Code of Conduct, establish a framework of expected behavior for users of the university's IT resources.

### Violations

Federal, state, and local laws apply to the Internet and "cyberspace" just as they do to physical space. Using the university's IT resources in a way that violates the law constitutes a violation of university policy.

◆**Note:** Anyone with access to institutional information should abide by policy and good judgment regarding the use of that information on Cornell systems (for more information, see University Policy 4.12, Data Stewardship and Custodianship).

Listed below are examples of specific violations of university policy (this list is illustrative, not exhaustive).

- Breach of confidentiality rules
- Unauthorized access to IT resources
- Unauthorized use of IT resources
- Unauthorized commercial use of IT Resources
- Copyright infringement through peer-to-peer file sharing or other means
- Dissemination, hosting, or posting of child pornography, or obscene material
- Initiating a denial-of-service attack
- Releasing a virus, worm, or other malware
- Fraud
- Phishing
- Spamming

### Reporting Violations

A legal or policy violation perpetrated using IT resources should be reported through the appropriate office for handling the alleged offense. For example (this list is not exhaustive):

- Report electronic security violations to the IT Security Office at (607) 255-6664 or [security@cornell.edu](mailto:security@cornell.edu).
- Report Campus Code of Conduct violations to the Judicial Administrator at (607) 255-4680.
- Report human resources policy violations and workplace issues to your local

## POLICY 5.1

### Responsible Use of Information Technology Resources

---

#### PROCEDURES, ITHACA CAMPUS UNITS, continued

---

human resources representative. A list of unit human resources leadership is available at [hr.cornell.edu/find-your-hr-representative](http://hr.cornell.edu/find-your-hr-representative).

- Report financial irregularities to the Cornell Hotline at [www.hotline.cornell.edu](http://www.hotline.cornell.edu), or call University Audit at (607) 255-9300.
- Report criminal violations to the Cornell University Police Department at (607) 255-1111.

When reporting these violations, include as much information as possible about the alleged perpetrator.

## POLICY 5.1

### Responsible Use of Information Technology Resources

---

## PROCEDURES, WEILL CORNELL CAMPUS UNITS

---

### Introduction

All members of the Weill Cornell Medicine (WCM) community are responsible for protecting the confidentiality, integrity, and availability of data created, received, stored, transmitted, or otherwise used by the college, irrespective of the media on which the data reside and regardless of the format (e.g., electronic, paper, fax, CD, or other physical form).

Departments are responsible for implementing operational, physical, and technical controls for access, use, transmission, and disposal of WCM data in compliance with all WCM privacy and security policies, procedures, and guidelines, which is available at [its.weill.cornell.edu/policies](https://its.weill.cornell.edu/policies).

WCM expects community members, including, but not limited to, faculty and staff members and students, to use all WCM information technology (IT) resources and data in a manner that is legal, ethical, and consistent with the missions of education, research, and patient care.

### Acceptable Use

Acceptable use of WCM IT resources and data includes, but is not limited to, the following:

1. Respecting system security mechanisms, and not taking measures designed to circumvent, ignore, or break these mechanisms
2. Showing consideration for the consumption and utilization of IT resources
3. Understanding and complying with policies, procedures, and guidelines concerning the security of the WCM IT and data
4. Assisting in the performance of remediation steps in the event of a detected vulnerability or compromise

### Unacceptable Use

Unacceptable use of IT resources and data includes, but is not limited to, the following:

1. Unauthorized access to or unauthorized use of WCM IT resources
2. Use of resources in violation of any applicable law or regulation
3. Any activity designed to hinder another person's or institution's use of its own resources and data
4. Installation, distribution, or intentional use of malicious software (spyware, viruses, etc.)
5. Security breaches, intentional or otherwise, including negligent management of a server or workstation resulting in its unauthorized use or compromise
6. Sharing a password

## POLICY 5.1

### Responsible Use of Information Technology Resources

---

## PROCEDURES, WEILL CORNELL CAMPUS UNITS, *continued*

---

#### **Information Technologies and Services (ITS) Liaison**

In order to facilitate compliance with this and other security policies, each department must appoint an Information Technologies and Services (ITS) liaison. ITS liaisons will be responsible for the following:

1. Understanding security policies and assisting in disseminating and evangelizing policies, procedures, and guidelines to the greater WCM community
2. Meeting with appropriate ITS staff members on a predetermined, regular basis to discuss security and other IT and data related issues
3. Providing documented authorization and de-authorization for data and IT resource access requests to ITS whenever appropriate
4. Assisting in performing remediation steps in the event of data loss, theft, compromise, detected vulnerability, etc.
5. Assisting in coordinating all activities related to electronic discovery (e-discovery)

Departments may choose to appoint multiple liaisons, when appropriate. Liaison appointments must be reviewed by the ITS Security Officer or his or her designee.

#### **Reporting Violations**

IT security questions or incidents should be reported to [support@med.cornell.edu](mailto:support@med.cornell.edu).

Violations of privacy rules and regulations, including loss or theft of confidential data (see WCM Policy 11.3 – Data Classification at [its.weill.cornell.edu/policies/1103-data-classification](https://its.weill.cornell.edu/policies/1103-data-classification) for the full definition of confidential data) should be reported to the WCM Privacy Officer at (212) 746-1121.
